## EDUCATION

---

### Korea University Institute for Continuing Education

- Coursework in Linear Algebra and Introduction to Probability and Statistics

Seoul, South Korea

*Jun – Aug 2016*

### NYU Steinhardt School of Culture, Education, and Human Development

- Bachelor of Science in Media, Culture, and Communication

New York, NY

*Dec 2013*

### University of Washington in Seattle

- Bachelor of Arts in Communication (Intended), Dean's List

Seattle, WA

*Sept 2010 – Jun 2011*

## WORK EXPERIENCE

---

### Google

*Account Coordinator, Large Customer Sales, Finance/Telecom/Travel/Movie Vertical*

Seoul, South Korea

*Aug 2015 – Oct 2016*

- Consolidated Google internal search tool and YouTube data set to build a predictive model for major advertisers and created competitive brand positioning via the analysis of new market which generated \$3M increase in revenue
- Investigated the effect of shifting ad spending from TV to YouTube on audience reach via meta-analysis with Data Analyst and Engineers and drafted proposals for key clients to allocate a \$10M+ financial plan onto digital advertising
- Examined 100K of web behavior information about consumers' conversion paths with software engineers; identified opportunities to improve online lead generation; and increased selling on display ads by 40% over the previous year
- Designed a campaign evaluation tool to track the weekly revenue and business growth of 70 customers in real-time
- Advised on 150+ technical solutions per week across all products to media agencies resulting in 95% client satisfaction

### The Clinton Foundation

*Clinton Global Initiative University (CGI U) Intern*

New York, NY

*Jan – May 2015*

- Converted nine years of the project record into a database for Chelsea Clinton to facilitate information sharing meetings
- Collected CGI U mobile app usage statistics, conducted usability testing, and checked the feasibility of the new features
- Edited 1,000+ student service initiatives into succinct memos that were announced by the CGI leadership (Bill, Hillary, and Chelsea Clinton) at a global annual meeting and published exceptional commitments on the official website

### TED

*TEDx Talk Screener Intern*

New York, NY

*Sept – Dec 2014*

- Devised a content quality tracking strategy for Screeners that effectively saved 15% of time spent on evaluating talks and reviewing the license agreement renewals, thereby achieving a timely completion of 350 videos weekly
- Translated hundreds of Korean, Chinese, and Japanese talks into English to be assessed by Screener Coordinators

## PROFESSIONAL DEVELOPMENT

---

*Research Assistant, Department of Mathematics, Korea University*

*Aug – Oct 2016*

- Gathered and interpreted price elasticity, production cost, and volume of financial product data to formulate a product pricing model in a competitive financial market and presented development progress weekly to the research team

*Independent Project—Predicting User Preference for Movies*

*2016*

- Analyzed 1,000+ data set consisting of movie reviews; built an analytical model in Python to estimate users' movie preferences by implementing the Naïve-Bayes algorithm; and achieved 5-fold cross validation accuracy of 95%

*Certificate*

*2016*

- UC Berkeley Extension: Java: Discovering Its Power
- edX, Coursera, Udemy: Machine Learning, Text Mining and Analytics, Multivariable Calculus and five other courses
